

2022 FUELS CONFERENCE
ENERGY SECURITY, PRICE, AND DECARBONIZATION:
IS THIS THE WINTER OF OUR DISCONTENT?

Thursday, September 29, 2022
Renaissance Hotel, Foxborough, MA

When Mark Twain reportedly observed that history does not repeat itself, but it often rhymes, he may have been speaking about the state of the fuel supply situation in New England. Recent events and price shocks have drawn renewed attention to the uncomfortable reality facing the region: it is energy-insecure during extreme weather conditions. This vulnerability is a feature, not a bug, as these challenges have been the subject of numerous stakeholder discussions, meetings, and proposals for over a decade. Now, with Winter 2022-2023 only a few months away, and with several of the region’s states pursuing ambitious decarbonization goals, curtailments and service interruptions are no longer remote possibilities. Join us on Thursday, September 29, 2022, for an informative and engaging discussion with industry experts and representatives for their perspectives on the current situation, and what it means for the region for both this winter, as well as for the future.

PROGRAM

8:00 am	Registration and Continental Breakfast	12:45 pm	Keynote: Fueling the Future
8:50 am	Welcome & Introduction Conference Co-Chairs: Jonathan Carroll & Sara Wilmer		Introduction: Jonathan Carroll , Director Business Development – USA, <i>Énergir</i>
