

# 2024 ENVIRONMENTAL 101

Thursday, July 25, 2024 | 8:00 am - 4:30 pm  
BSC Group | 1 Mercantile Street, Worcester, MA

Join NECA for an overview of how the energy industry is affected by environmental regulations and policy. Experienced presenters will give an overview of environmental regulations pertinent to the industry, including discussion of real world applications of these regulations through case studies of different types of energy projects. This seminar is geared for those new to the environmental industry, as well as individuals in the energy industry who would like to gain a better understanding of environmental regulations and policy applicable to energy.
